Wheebox Remote Proctoring Solutions

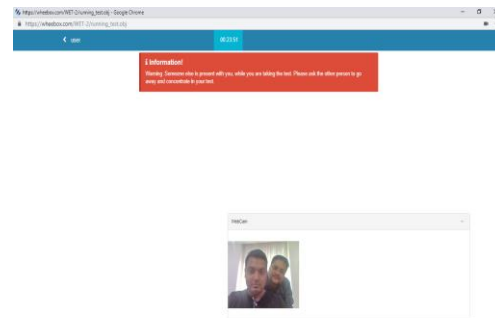

Wheebox have three levels of proctoring solution

AUTO PROCTORED USING MICROSOFT AI COGNITIVE SERVICES

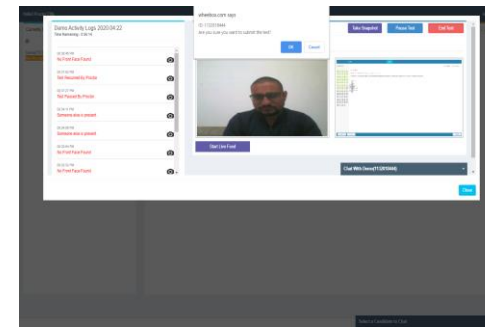

We use Microsoft AI & ML based face recognition tool to authenticate candidate identity along with AI tool to track the movement of the candidate during the examination. System can auto submit the test if assigned number of warnings are exceeded.

REMOTE PROCTORED ASSESSMENT SOLUTION

We use remote authentication and proctoring of the candidates along with AI tool to track the movement of the candidate during the examination. System can auto submit the test if assigned number of warnings are exceeded.

IMAGE AND VIDEO PROCTORED SOLUTION

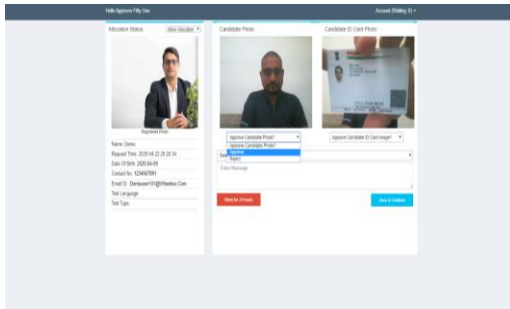

We randomly click images of the candidate and exam window audio & video of the candidate is saved in the system for audit at later stage.

- ❖ Image Proctoring
- ❖ Video Proctoring
- ❖ Face Tracking
- ❖ Face Recognition
- ❖ Live Proctoring
- ❖ Cognitive Analytics
- ❖ Device Detection
- ❖ Noise Detection

Certified Remote Proctored Solution

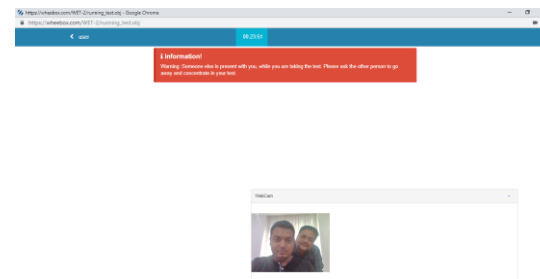

Wheebox remote proctored solution has been certified by CERT-In (National Agency for Cyber Security) for application security on protection from hacking and phishing.

DIGITAL ID VERIFICATION

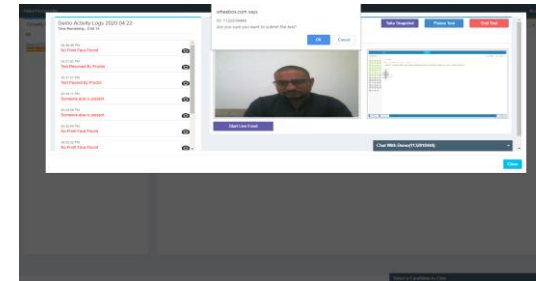

The Application captures and verifies digital identification as a verification tool for progress.

FACE TRACKING

It tracks candidate's Face and also tracks if there is any doubt of proxy or more than one candidate taking test.

DESKTOP CONTROL

The application tracks activity on the user's monitor, provides warning or terminates the test if any unwarranted application is opened during the test.

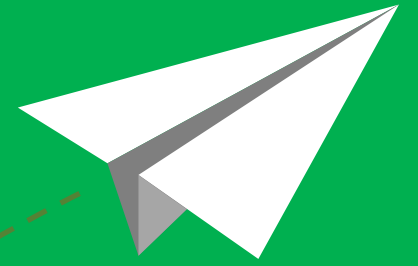

76,000+

**Live Online Proctored
Tests Processed In A
Day.**

Demo
